

# BUET GPA Calculator & Admission Eligibility Guide

This official student guide explains how BUET GPA eligibility works, how to calculate qualification correctly, and how SSC & HSC GPA affect BUET admission eligibility in Bangladesh.

## BUET Admission GPA Requirements (Official)

To sit for the BUET admission test, students must meet strict GPA requirements. Applicants must pass from the Science group and satisfy both overall and subject-wise GPA conditions.

Minimum requirements include SSC GPA 4.00 or higher, HSC GPA 5.00, and GPA 5.00 individually in Higher Mathematics, Physics, and Chemistry at HSC level.

Requirement	Minimum GPA
SSC (Science)	4.00 / 5.00
HSC (Science)	5.00 / 5.00
HSC Higher Mathematics	5.00
HSC Physics	5.00
HSC Chemistry	5.00

## Eligibility Formula Used in This Tool

If SSC GPA is at least 4.00 AND HSC GPA is exactly 5.00 AND each of the subjects Higher Mathematics, Physics, and Chemistry has GPA 5.00, then the student is eligible to sit for the BUET admission test.

## How the BUET GPA Calculator Works

The calculator checks your SSC GPA, HSC GPA, and individual subject GPAs. It instantly verifies whether you meet BUET admission eligibility based on official rules.

## Printable BUET Admission GPA Checklist

- Passed SSC from Science group
- SSC GPA is 4.00 or above
- Passed HSC from Science group
- HSC GPA is exactly 5.00
- Higher Mathematics GPA is 5.00
- Physics GPA is 5.00
- Chemistry GPA is 5.00
- Checked latest BUET admission circular
